### **DETAILED ACTION**

1. Subsequent to the notice that claims 24, 25, 34-49 were allowable, a review for non-statutory subject matter has necessitated new grounds of rejection. These new grounds of rejection follow below.

#### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 34 is rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential elements, such omission amounting to a gap between the elements. See MPEP § 2172.01. The omitted elements are: The generation of the keys for multivariate encryption. The claim includes the steps of determining a representation for the keys, and key triples, but fails to disclose how these elements are used to generate the key as required by the claim.

#### ***Claim Rejections - 35 USC § 101***

4. Claims 24, 34, 39 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. The claimed subject matter is not limited to the technological arts. The claims should recite a computer implemented method or a hardware method.
